Mapa de densidade de espécies/Species density map
Bibliografia/References
Text in English
Listagem/Checklist
Lista de Exsicatas/List of Specimens

This is a straightforward checklist of the Cyperaceae of Northeastern Brazil, presented in both Portuguese and English text, with a Forward by Wm. Wayt Thomas of The New York Botanical Garden. From the publishers: "Between 2002 and 2004, 1932 Cyperaceae specimens were examined and the information repatriated. This checklist records 191 species and 24 genera, with entries listed alphabetically and sorted by state, collector and number. An additional exsiccatae list enables duplicates lodged in other herbaria to be checked against the correct determination."
